Redskin

Through-The-Weave Industrial Fire Hose

Angus Redskin is a lay-flat, lightweight, flexible fire hose specifically designed for industrial fire protection. Redskin is UL approved and features a unique through-the-weave, one piece construction that will not delaminate. The synthetic reinforcement is totally encased in a Nitrile rubber cover and lining which is resistant to fuels, oils and chemicals.

Redskin

Through-The-Weave Industrial Fire Hose

I N D U S T R I A L

Dependable, lay-flat and flexible, Angus Redskin fire hose is specifically engineered for industrial fire protection. Redskin combines Angus' reliable one piece through-the-weave construction with a heavy duty rib pattern making the hose highly resistant to punctures and cuts. Angus Redskin is ideal for racks, reels, hose houses and cabinets as well as in-plant fire apparatus. Anywhere applications require an extremely abrasion and heat resistant product. Meets the needs of most industrial fire brigades as well as municipal and volunteer departments. The standard colors for Redskin are red, blue or yellow.

- Hose meets or exceeds specifications for heat and kink resistance.
- Lay-flat, lightweight and flexible ideally suited for industrial fire protection and in-plant apparatus.
- No drying time required—just wash and store.
- Hose is designed to resist cracking, mildew, and rot.

- Resists fuels, oils and a wide range of chemicals and bases.
- Underwriters Laboratories listing and Factory Mutual approval available on 1½" and 2½" diameters.
- Redskin is manufactured to meet or exceed NFPA 1961 standard.
- Available in a variety of sizes including 1½", 1¾", 2", 2½" and 3" hand lines.

Technical Specification

Size		Service		Pressure Proof		Burst		Bowl Size		Weight* 50' (15m)		Coil Diameter 50' (15m)
